

AUTISM SPECTRUM DISORDER: A PRIMER FOR CASE MANAGERS

with Todd Kopelman, PhD, BCBA & Kelly Pelzel, PhD

**Friday, June 14, 2024
12-1 PM**

Learning Objectives:

1. Increase familiarity with symptoms of Autism Spectrum Disorder.
2. Gain preliminary understanding of adaptive functioning and why some adaptive skills are difficult for individuals with autism.
3. Identify interventions for individuals with autism that are supported by research.
4. Describe options for individuals with challenging behavior or individuals and/or families who are in crisis.
5. Provide resources for families in Iowa living with autism.
